

ARTWORK / PROOF REPORT

Independent portfolio demonstration. Not print certification. No artwork has been sent to a printer.

The single-page preview shows a wide horizontal artwork with a large dark-green rounded rectangle on a pale background and small white text. The requested 3.0 × 3.0 inch square format appears visually inconsistent with the displayed landscape composition. Low-resolution previews cannot certify print accuracy, colour reproduction, or embedded raster DPI.

Page 1 preview

Effective resolution

measured / warning / measurement:page-1

150.0 DPI at 3 x 3 inches; demonstration target is 300 DPI.

Transparency

measured / info / measurement:page-1

No transparent pixels detected; background colour is not inferred.

Transparent margins

measured / info / measurement:page-1

Left/top/right/bottom pixel margins: [0, 0, 0, 0]. These are not certified bleed measurements.

Aspect-ratio mismatch

measured / warning / measurement:page-1

Artwork and requested print size differ by over 2%; fitting may add margins or crop content.

Composition is strongly landscape-oriented

[model-suggested](#) / [warning](#) / [preview:page-1](#)

The visible artwork is a wide horizontal panel with substantial side-to-side emphasis, which may not fit a 3.0 × 3.0 inch square format without cropping, scaling, or added margins. Confirm the intended square treatment.

Small text may need legibility check

[model-suggested](#) / [warning](#) / [preview:page-1](#)

The white line “FIELD NOTES / ORIGINAL DEMO” is relatively small within the artwork. Verify its final-size readability at the intended viewing distance.

Preview cannot certify print output

[requires-human-review](#) / [info](#) / [preview:page-1](#)

This preview is insufficient to certify final print sharpness, colour reproduction, or embedded raster DPI. Review the production file and a suitable-size proof for those checks.
